BOARD & TRAIN AGREEMENT

Continue the Training Process While On Vacation From Your Dog

Board & Train Services are offered on a time-limited, intensive basis. Service comes in three (3) different packages based on need. Additional days beyond these three packages available a la carte.

B&T client working through "fear of strangers in uniform".

Board & Train differs greatly from simple boarding services with respect to intensity, individualized attention & training focus on problem areas.

I do not offer board & train for less than 3 days as there simply wouldn't be enough time to even begin to change behavioral issues.

Private or group training through A Better Pet LLC is a mandatory prerequisite.

Advance reservations required.

Description:

For starters, your dog will be living in a home, not a kennel. Your dog will be under direct and indirect supervision of Professional Positive Reinforcement dog trainers whom you will already know from the initial session. Your dog's days will be filled with a menu of activities all designed to "fix" identified problems in an intensive and proactive format including but not limited to:

Socialization & play

With other dogs, a resident dog friendly cat or more, and a variety of people - adults and children. Structure includes balance between working and plenty of opportunity to rest, play and absorb lessons.

Continued training

Under the guidelines of **The Six Pillars of Dog Training Wisdom** introduced in your initial session. This includes increasing reliability of manners in increasingly challenging ways incorporating distractions, distances & durations. Structure/ routine and management styles used in Board & Train are all intended to

enhance the learning or training experience. There will be a minimum of **TWO (2)** hours per day of individualized sessions spread out over each day. You are permitted to touch base by phone or email on a daily basis if desired. We also document regularly via [A Better Pet Facebook Fan Page](#).

Reintegration.

This is a **REQUIRED** session provided upon pick up of your dog in the board & train residence and should be scheduled in advance to ensure enough time. Assume 30-60 minutes for this. In this session we review the progress of your dog and discuss protocols for reintegrating your dog back home with continuing success and includes ongoing support by phone or email for one month. (Reintegration option in your home including a delivery is available for additional fee, travel rates apply, ask for more details if interested).
